1 Risk Assessment

Risk assessment is the process of brainstorming, analyzing, and mitigating potential project risks before it's too late. Below: a table.

1.1 Risk Table

Risk type	Risk	Probability	Impact	Manager
Project risk	Users trust model too much	53%	3	Inform t
Project risk	Other classwork prevents work on the project	63%	3	Do a bac
Technical risk	Model misclassifies data	72%	2	Allow us
Technical risk	Program crashes	47%	3	Lots of U
Project risk	layout does not meet user needs	42%	3	Assess an
Project risk	Communication failure with client	37%	4	Plan a m
Business risk	Change to requirements	43%	3	Clarify r
Technical risk	Improper IPC leading to bugs	36%	3	Look for
Project risk	Missed Deadline	27%	4	Plan ahe
Technical risk	Too slow to respond to packet data	33%	3	Display t
Technical risk	Network packets in incompatible format	33%	3	Use a dif
Technical risk	interface is accessible by outside actors	37%	2	Only allo
Technical risk	Too many packets for queue	29%	3	Disregar
Project risk	Someone on the team gets sick/ becomes unable to work	23%	3	Maintain
Technical risk	Doesn't collect/show all packets	23%	3	Research
Technical risk	The code does not work	16%	4	Lots of U
Project risk	insufficient meetings	32%	2	Prepare
Technical risk	Model fails to train	17%	3	Try diffe
Project risk	Viability failure	18%	3	Discuss t
Project risk	Computer failure prevents work	15%	3	Backup o
Project risk	Internet Failure preventing work	17%	3	Coordina
Project risk	layout is confusing	28%	1	Distribut
Project risk	Code has an unresolvable version conflict	9%	4	Identify
Project risk	User doesn't understand interface	23%	1	Distribut
Technical risk	Final platform has unforeseen incompatibilities	10%	3	Utilize re
Project risk	Local/National emergency of some kind prevents work	4%	4	In this c
Business risk	Client drops project	4%	5	If occurs
Project risk	User confuses prod with testing	7%	2	Clearly o
Business risk	Change in management	4%	2	Plan ma
Project risk	Computer stolen prevents work	1%	4	Backup o
Project risk	Project work stolen	2%	2	Keep wo
